

## 667 final project proposal - basicgram

For our final project, we will make a startup style app where users can upload and browse images and make comments.

### Basic features:

- Sign up as a new user
- Login
- Logout
- Post images with brief captions
- Browse image on homepage
- View a user's image history
- Comment under postings with real time updates
- User profile page

### Advanced features:

- Search for posting
- Sort postings by specific order
- Delete postings
- Edit postings
